

Remembering Aee Winfrith: A Technological Moment in Time

Filesize: 2.89 MB

Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It's been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.

(Prof. Loyce Runolfsson Jr.)

REMEMBERING AEE WINFRITH: A TECHNOLOGICAL MOMENT IN TIME

Amberley Publishing. Paperback. Book Condition: new. BRAND NEW, Remembering Aee Winfrith: A Technological Moment in Time, Peter Fry, This history of the Atomic Energy Establishment at Winfrith covers the entire spectrum of the story from how the idea was conceived right through to the time of de-licensing of the land. A government's wish to seek answers to the problems of providing energy to the nation largely resulted in the construction of the Winfrith site. The plan was to investigate various reactor types in experimental form with the eventual aim of recommending at least one of these prototypes to produce cheaper electricity for the British consumer. For 23 of these years one of the chief reactors duly obliged in providing electricity to the National Grid. Another reactor displayed how nations could come together to form a united front in the quest for scientific knowledge. Other reactors operated with less publicity but often gained significant plaudits in the scientific world, sometimes by inventing new computer codes or setting international standards in their own particular field of science. When Government made its decision to cut back on reactor development, Winfrith was obliged to diversify and then became a centre for reactor safety and oil research. The book also documents Winfrith's comprehensive training scheme for apprentices, the social and sporting activities enjoyed by the staff and how plans are in place for the eventual end state scenario. Appropriate anecdotes of this work compliments the story along with a foreword contributed by a former head of site.
