That was a little step for her, but it was a giant step for mankind. Soon people began to preserve food in stoneware jars. The principle of preserving these fruit/food items depended firstly upon the destruction by need of all the mold and bacteria in the air, fruit, or water. As technological development and experimental sciences began to develop in ancient civilizations, they discovered how to make glass containers and bottles more than 5000 years ago. Naturally, at the same time, the cook in the kitchen was experimenting on food stuffs. It was only by trial and error that she learned that if she kept items of food in a moist atmosphere, it would soon grow moldy and perish real fast. Also, she learned that the exclusion of air during the sealing off the bottles prevented this mold from growing on the surface of the food. Along...
